“Last year the Amsterdam energy atlas was launched, mapping the energy use and potential in the city, based on real data, no estimates.

Since it’s almost impossible to find a GP nowadays, I try not to anger my (opinionated) doctor; she might refuse to treat me on account of my “non-compliance”.

It has been exported with Russian-built frigates and one variation, the AS-20 kayak, was developed for air-launch from Su-30 and Mig-29 aircraft, with improved air-launch range possibilities.
